CAREER OBJECTIVE

Motivated Artificial Intelligence student at FAST-NUCES Islamabad with a solid foundation in AI, Machine Learning, OOP and DSA, seeking an AI/ML or Software Engineering Internship to apply technical skills on real-world projects. Eager to learn, solve problems and contribute to intelligent systems while gaining hands-on industry experience.

EDUCATION

Bachelor of Science in Artificial Intelligence

FAST-NUCES, Islamabad · Currently in 5th Semester

- Relevant Courses: Object Oriented Programming, Data Structures and Algorithms, Artificial Intelligence, Machine Learning, Software Engineering

TECHNICAL SKILLS

Languages: Python, C++

CS Fundamentals: OOP, DSA, Problem Solving

AI / ML: Artificial Intelligence, Machine Learning

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, PyTorch, OpenCV

Tools: Git & GitHub, VS Code

PROJECTS

Automated Smart Shopping Cart System | AI · Computer Vision | FAST-NUCES

- Designed an AI-powered cart that follows users in real time inside a mall environment using movement tracking algorithms
- Implemented obstacle detection and autonomous navigation logic for safe, real-time path planning
- Planned future enhancements: face recognition, voice commands, gesture control and product scanning

UniCafe – Full-Stack Campus Ordering Platform | Software Engineering | FAST-NUCES

- Developed a full-stack web application as part of the Fundamentals of Software Engineering course
- Implemented three role-based portals: Students (place orders), Owners (manage menu) and Delivery Staff (handle fulfillment)
- Applied software engineering principles including requirements analysis, system design and iterative development

2D Subway Surfers Game Clone | C++ · OOP | FAST-NUCES

- Built a fully functional 2D endless-runner game in C++ applying encapsulation, inheritance and polymorphism
- Implemented scoring engine, player movement, obstacle generation and game-state management

Forest Monitoring & Alert System | DSA · Optimization | FAST-NUCES

- Designed a smart environmental monitoring system using advanced data structures for efficient real-time data management
- Focused on algorithmic efficiency and scalable system design for large-area coverage

EXPERIENCE

Software Development Intern (C++) – CodeAlpha | Online

- Developed a console-based Banking System with account management, transactions and balance tracking in C++
- Built a CGPA Calculator tool with GPA-to-CGPA conversion and semester-wise grade management
- Implemented a secure Login System with credential validation and session handling logic

VOLUNTEER EXPERIENCE

Volunteer IT Instructor – Child Protection & Welfare Bureau | Rawalpindi, Pakistan

- Taught foundational computer skills to orphan and homeless children, introducing them to technology-based learning
- Provided educational mentorship and took part in structured support programs to promote digital literacy

SOFT SKILLS

Communication, Teamwork & Collaboration, Leadership, Creativity & Innovation, Time Management, Analytical Thinking

LANGUAGES

- Urdu (Native)
- English (Professional)
